

NEUESwagen aus LEGO®-Steinen

smarthoch3.de/moc-lego-neueswagen

Schaufenster in die Welt der Forschung

Der NEUESwagen ist buchstäblich ein Schaufenster in die Welt der Forschung, Entwicklung und Anwendung. Denn nicht nur die auffällige Gestaltung seines Äußeren verfängt. Wenige Handgriffe verwandeln das Ausstellungsregal in eine Präsentationsfläche, die dank der großen Seitenscheibe und der Beleuchtung selbst nachts noch Einblicke in die Vielfaltigkeit der Materialien gewährt.

hard facts NEUESwagen

	<i>real</i>	<i>MOC LEGO® Edition</i>

Europas größtes Netzwerk für smart materials

Als interdisziplinäres Netzwerk lebt smart³ den Austausch von Wissen und die Zusammenarbeit von Partnern unterschiedlicher fachlicher Herkunft. Sowohl in unserer Geschäftsstelle in Dresden als auch in unserer Zweigstelle in Saarbrücken initiieren wir Vernetzung, koordinieren damit zusammenhängende Aktivitäten und sind erster Anlaufpunkt für alle Mitglieder und an smart materials Interessierte. Und natürlich stehen wir Ihnen bei allen Fragen zu den Werkstoffen tatkräftig zur Seite.

Geschäftsstelle Dresden

Fraunhofer IWU
